TOKYO, April 24.—A truculent Japanese government reaffirmed today its determination to stand by its declaration of a "Monroe Doctrine for the Orient."

The pretext that the declaration of policy made last week was merely the "informal verbal statement" of a foreign office spokesman was cast aside and foreign minister Koki Hirota informed his fellow members of the cabinet it was a policy Japan was ready to "reiterate at any time foreign observers need enlightenment."

British Send Note
Hirota's statement to the cabinet followed Great Britain's action in sending to the Japanese government a "friendly communication" clarifying British policies in the far east. It was not made known whether this communication officially had been received by the Japanese government at the time Hirota reaffirmed Japan's policy.

Hirota's statement, however, left no doubt of Japan's determination to pursue the course she has outlined with regard to China, just as she did in her Manchurian policies, despite the opposition of the western powers.

The Japanese government, Hirota said, is determined to watch the

It is the most elaborate of the state-wide celebrations anywhere in Pennsylvania. It will have 500 pupils in the pageantry, and will attract a crowd that will probably pack the cathedral.

Tomorrow is registration day for New Castle voters who were not registered last fall, or who have changed their residence since the last election. It is the first registration day since the recent amendment to the state constitution, which eliminates the necessity of a tax receipt to be registered.

Stolen Securities Are Bought Back By Bankers In Kansas

Independence, Kan., Bankers Pay Bandits \$25,000 To Get Securities Back

Transfer Of Securities To Bankers Takes Place In Room Of Hotel

(International News Service)
KANSAS CITY, O., April 24.—Robbed of \$200,000 in securities in January, the Independence State Bank of Independence, Kan., has "bought back" the loot from the bandit gang for \$25,000, it was revealed today.

The transfer of the securities for the cash was made at arms length through adjoining rooms in a downtown hotel here yesterday, the loot being divided into fifth with the bank's representatives passing \$5,000 through the doorway after receipt and checking of each package.

The hotel room transaction was as calm and businesslike as the robbery was lawless and violent. The \$25,000 and the securities were posted at separate central points so that at no time was there more than \$5,000 in cash or \$40,000 in securities in the rooms.
As each package of securities was passed into the hands of the bank's representatives it was taken to the "cash" central point, checked and the \$5,000 payment sent to the hotel. In like manner the \$5,000 received by the gang was taken to its central point and another batch of securities dispatched to the hotel.
The "deal" with the underworld was confirmed by L. C. Boys, president of the bank, at Independence.

Italy Appears Only Country Ready To Take Deposed Bolshevik Leader

PARIS April 24.—Approached diplomatically by France, Soviet Russia has refused to allow the return of Leon Trotsky, International News Service learned today.

France, desiring to get rid of the famous exiled Bolshevik leader as soon as possible, broached the question of his return to Russia as a possible solution of its problem, it was learned.

Whether or not Trotsky is willing to patch up his end of his feud with Dictator Josef Stalin, the present Soviet regime will not have him back, France was told.

WASHINGTON, April 24.—Supporters of the McLeod bill to "thaw" deposits in closed banks through the RFC today were driving toward a vote on the measure in the house on May 14.

New Relief Head Takes Over Post

E. H. Robinson, Harrisburg, Will Serve Here As Acting Director

REVAMPS SET-UP AT CO. BOARD OFFICE

E. H. Robinson, Harrisburg, for the past year identified with the State Emergency Relief board in various executive capacities, came to New Castle today to become acting executive director of the Lawrence County Emergency Relief Board.

Mr. Robinson succeeds Wilson Hall, who resigned the post a week ago after six months of service here. The new director will remain here for an indefinite period.
Schooled in the technique of relief administration by his long service in the state board's accounting branch and later in charge of its county board merger work, Mr. Robinson, for 25 years a bank president in the Philadelphia district, brings to the county post a broad knowledge of relief accounting and executive functions. His latest work was the consolidation of 28 county boards in central Pennsylvania into area units, the new unit under which the state board expects to conduct its work for the next few years.

Needy Care His Job
Of his task here, Mr. Robinson said:

"I've been sent here as acting executive director, and how long I'll be here I don't know. But, let me assure everyone, I will see to it that relief in Lawrence County is properly administered to those who are entitled to it. That, in brief, is my job."

Immediately upon arriving here, the new director set about his work of adjusting the present set-up of the county office on North Mill St.

Hundreds Of Public School Pupils To Perform At Cathedral

There will be few available seats Wednesday night in the Cathedral auditorium it was indicated today when the final plans of the Educational pageant were made known. Approximately 1000 boys and girls of the public schools of New Castle will be on the stage at various times depicting episodes in the history of education.

Perhaps the most interesting part of the pageant will be the re-enactment of the historic session of 1835 when the Free Public School bill was saved from repeal.
The cost of this pageant is considerable but is being borne entirely by the teachers of the schools. None of the cost comes out of the taxpayers' money.

COMPROMISE ON NEW TAX MEASURE

WASHINGTON, April 24.—Speed with which congress is disposing of controversial legislation today revived administration hopes of completing President Roosevelt's program and adjourning by the end of May.

The program would include sugar, airmail, tariff, stock market and bankruptcy legislation, besides the new tax bill. Both branches have indicated a willingness to hasten final votes on these measures. As an illustration house and senate conferees agreed to a compromise on the sugar bill within one hour.

The same willingness to compromise was noted in conference action on the new \$500,000,000 tax bill. All minor differences have been adjusted and complete agreement by Wednesday was predicted.

Federal Agents Will Soon Have Dillinger Asserts Bureau Chief

(International News Service)
WASHINGTON, Apr. 24.—"I hope we won't have to try him!" That's what the department of justice says about America's public enemy No. 1—John Dillinger.
In other words division of investigation agents have been instructed to shoot first and ask questions, if necessary, later.
Assistant Attorney General Joseph B. Keenan, in charge of criminal prosecutions, and J. Edgar Hoover, chief of the bureau of investigation, expressed confidence that Dillinger soon would be captured.
President Roosevelt asked congress to rush enactment of the anti-crime bills drafted by the department of justice. He conferred with Rep. Summers (D) of Texas, chairman of the house judiciary committee, who promised immediate action by his committee.
The proposed legislation would make it a federal crime to kill a federal agent, grant federal prosecution of criminals who cross state borders and generally strengthen criminal laws.
"We got George (Machine Gun) Kelly—we'll get Dillinger just the same," Keenan declared.
The latest escape of Dillinger, in which for the second time he got himself out of the hands of the federal and state authorities, intensified the search.

REGISTRATION DAY IN CITY WEDNESDAY

County Solicitor Gives Formal Opinion On Who Can Be Registered

No Tax Receipt Is Needed To Register For First Time Locally

Wednesday, April 25 is Registration Day in New Castle, for all those people who failed to register in 1933, and for the first time in many years registration can be accomplished without the necessity of a tax receipt. All registry polls in New Castle will be open from eight in the morning until noon, from one in the afternoon until six and from seven to ten at night.

Because the necessity of tax qualifications for voting have been removed it is thought that many will take advantage of the opportunity to register tomorrow. The primary elections on May 15 with their important offices will also draw unregistered voters to the polls it is thought.

No Transfers—Unless
The possibility of a voter transferring his affiliation from one party to another before the May primary has caused considerable discussion in New Castle. There are two opinions in the effect that a voter cannot transfer his allegiance to the county commissioners and swears that he voted for more than fifty per cent of the other party's candidates in the election of November 1933. These opinions are handed down by County Solicitor William McElwee, Jr., and Election Bureau Chief George D. Thorn of Harrisburg.

The formal opinion of County Solicitor William McElwee, Jr., on registration tomorrow is as follows:

Solicitor's Opinion
To The County Commissioners Of Lawrence County:—

You have asked me the following question: When voters are once enrolled in a party, can they change their party affiliations and have their party enrollment changed, and if so, how?

A few observations will clarify the matter.

Girl Can Talk After Operation

Gains Use Of Voice After Near Silence Of Twenty Years

(International News Service)
PHILADELPHIA, Pa., April 24.—"It's funny to hear myself talk." Thrilled at the sound of her own voice, pretty Omelda Kephart Phillipsburg's "whispering girl" smiled happily today as she praised the work of medical science.

For 20 years she spoke out only in a stage whisper barely audible. Last October Dr. Gabriel Tucker chief of the bronchoscopic clinic of the University of Pennsylvania hospital in Philadelphia removed a tissue growth on the vocal cords.

Then for the first time in her life Omelda realized she had actually lived 20 years without a voice. As a child, she was quite healthy but lacked the ability to cry as a normal baby should.

"I never know that my voice wasn't the same as everyone's until I said 'hello' to the doctor two weeks after the operation," she told an International News Service representative. "Now I can feel myself talk."

"Being without a voice really wasn't a hardship because I didn't know what it was to talk. My sister and I were constantly together and she carried on most of the conversation."

Words that were gasped from the lips that death was sealing were to be told the jury by Dr. S. E. McGarvey, Bridgeville physician, who was to be the first state witness. They were:

"Two men...in a Ford roadster...with light wire wheels got me...a few minutes after he uttered that sentence, Brantlinger was dead Dr. McGarvey said.

Several other state witnesses residing in the Bridgeville area were also expected to take the stand today to give their versions of the events that followed the shooting.

Testimony to show that the car Davis is supposed to have used was stolen from Mt. Records of the boy's past were also to be brought into the case by the prosecution being conducted by Roy T. Clunk.

Brantlinger was shot down last September 3, as he attempted to question the "two men in a roadster."

Seek Agreement On Rail Wages

REGISTRATION DAY IN CITY WEDNESDAY

(Continued From Page One)

gle exception hereinafter noted) belongs only to those who have for ten days prior to the primary election been enrolled as members of that party.

Alike in cities, boroughs and townships the party enrollment is made in the first instance at the time of the regular annual registration.

In cities of the third class, the days for the regular annual registration and enrollment are fixed for the year 1934 as September 6th, September 18th and October 6th. The Spring primary coming on May 15th, the regular annual registration and enrollment for 1933 is used, and April 25th is fixed for the purpose of registering and enrolling voters that, for any reason, are not on the 1933 registration and enrollment.

Persons the most common reason for not being on said registration and enrollment is that the voters have moved since the registration in 1933. Persons that have changed their party affiliations, in the only way that this can be done, may have their enrollment changed, by producing the proofs prescribed by the statute showing such change. No proofs, no change.

In the boroughs and townships the principle is just the same, except that persons voting on age may register and enroll in a party on the day of the primary. While there is no personal registration in the boroughs and townships, yet all voters are supposed to be registered and enrolled by the assessor, at the time of the regular annual registration and enrollment. On March 14th the assessors sat at the polling places to perform essentially the same duties that are performed by the registrars in the city of April 25th. Persons who have changed their party affiliations may have their enrollment changed, upon the same proofs as in cities of the third class. No proofs, no change.

What do they have to prove, and how do they do it?

An elector is entitled to be enrolled in a party only if he or she voted for a majority of the candidates of that party at the last preceding November election at which he voted. Of course, if the question is not raised, the voter usually is enrolled in the first instance in the party that he or she names, without proof or demand of proof of the right to be enrolled.

Persons that are enrolled in one party and voted for a majority of the candidates of some other party at the last November election may be enrolled in the party to which they now are entitled to belong; but they must prove their right to change by affidavit that they so voted.

It therefore must be apparent that a Republican becomes a Republican and remains a Republican by voting for a majority of Republican candidates in November, and a Democrat becomes a Democrat and remains a Democrat by voting for a majority of the Democratic candidates in November.

Membership in a political party is not a rash that breaks out just before a primary election when the voter is itching to nominate someone or lick someone else. In this matter of party affiliation either a Democrat or a Republican may repent, but he must do his "works meet for repentance" at the November election and not just before the primary.

To change his party enrollment, he must establish by his right to have it changed by his affidavit that he voted at the last November election at which he voted for a majority of the candidates of the party in which he now wants to be enrolled.

In order that voters may not have snap judgment taken against them, if they were sick or necessarily absent on all registration days in the city, as to them the County Commissioners are given authority to perform the duties of the registrars and enroll them, but this must be done on or before May 5th this year, and then only if they are legally entitled to be registered and/or enrolled. In acting on the applications of persons who are not registered or enrolled or want to change their party enrollment the County Commissioners have no greater powers than have the registrars or the assessors, except only that they are not quite so restricted as to the time when they may exercise those powers.

They may also exercise a certain appellate jurisdiction in cases of complaint filed as to the actions of the registrars. In other words, when a case comes before the County Commissioners on appeal, the appellant must allege error on the part of the registrars or in the registration and/or enrollment.

When a voter wishes to be enrolled in a party the question is whether or not he is entitled to be enrolled as he wishes. His wish is not conclusive on his right. All election laws are to be construed in pari

materis, and therefore when the County Commissioners perform, under certain limited circumstances, the functions of the registrars and/or the assessors, they are governed by the same law that governs the registrars and/or the assessors. In other words, the County Commissioners cannot legally change the enrollment of a voter and enroll him in another party simply because the voter wants to have it done. They should demand the statutory proof that the voter is entitled to be enrolled in the other political party. This proof consists of an oath by the voter that at the last November election at which he voted, he voted for a majority of the candidates of the party in which he wishes to be enrolled, and if the registrars act on his case on April 25th, next, and he is dissatisfied with their action, he must appeal and allege error. Unless he is sick or necessarily absent, he must first submit his case to the registrars. If he was neither sick nor necessarily absent on April 25th the County Commissioners can do nothing for him either with or without proofs.

Respectfully submitted,
WILLIAM MCLEWEE, JR.,
County Solicitor.

New York Police Check Finding Of \$6,700 In Ten And Five Dollar Bills In Home

(International News Service)

NEW YORK, Apr. 24.—Sixty-seven hundred dollars in five and ten dollar bills turned up mysteriously today in the department of Victor Pugeos, employee of an installment here.

The money was immediately turned over to police who began checking it to determine whether it represented part of the \$50,000 ransom paid by Col. Charles A. Lindbergh in a fruitless effort to recover his kidnapped son.

The money was found by Pugeos' wife in a drawer of a built-in closet which she succeeded in opening only after considerable difficulty.

The inside of the drawer presented an unusual appearance.

A slab of cardboard had been fastened across the top of it with an unusual type of screws, and on top of the cardboard were several envelopes.

Upon opening them, the astonished woman found 67 ten dollar bills and the balance of the small fortune in five's.

sale of airplanes and arms to China because it regards such sales as possible factors contributing to the eventual disturbance of the peace of China.

Relations Threatened

Financial and technical assistance to the Chinese government, by other nations, Hirota said, also would be looked upon with disfavor because such assistance would tend to threaten Japan's relations with China.

"Non-political" assistance in the cultural development of China, the foreign minister said, would meet with no objection on the part of Japan.

Will Warn Japan.

London, April 24.—The powers of the western world will be asked by Great Britain to join in a warning to Japan that they will not accept sole Japanese control of China, it was indicated today.

This was the development expected to follow the official approval of the Japanese "Monroe Doctrine for the Orient" given in Tokyo by Foreign Minister Koki Hirota.

The official backing given Japan's "hands off China" policy, hitherto enunciated as an informal verbal statement of a foreign office spokesman, caused a sensation here.

Must Halt Japan.

Hirota's official support of the doctrine of Japanese hegemony in the Far East, however, makes it evident Japan's policy is crystallizing and leads British officials to believe that only more positive representations by both Great Britain and the United States, and possibly other strong western powers, can halt the course upon which Japan has embarked.

The Far East crisis now overshadows the question of disarmament in Great Britain's view of international affairs. Important economic angles concerning Britain's extensive trade and far-flung commercial interests in the Orient are involved.

DINNER MEETING FOR YOUNG WOMEN

The April meeting of the Young Women's Missionary Society of the Reformed Presbyterian church was in the form of a prettily appointed tureen dinner Monday evening in the home of Mrs. Elizabeth Maxwell, Butler avenue. Early spring flowers in variegated colors formed an attractive center piece for the large dining table.

When dinner was over Mrs. Katherine Christoffer called a business meeting to order and four new members were welcomed: Mrs. Bernice Montgomery, Mrs. B. Ivy, Marjorie Riney and Mrs. Helen McCaskey. Tentative plans were made for the mothers' party in May and committees were appointed for the various arrangements.

An election resulted in Mrs. Edith Campbell being named president; Dorothy Riley, vice president; Mary Bowes, secretary, and Jean Tindall, treasurer.

CHILDREN OBSERVE DOUBLE BIRTHDAY

A happy event of Saturday afternoon was a double birthday party in the home of Rev. and Mrs. D. L. Ferguson on Sheridan avenue, the occasion marking the eighth birthday of their daughter Julia and the first birthday of their son Bob.

Many games were provided for the kiddies' amusement during the hours from 3 to 6 when the little people were ushered into the dining room and seated around a table prettily decorated in pink and green.

A large birthday cake was an attractive centerpiece

Special Cachet Plans Furthered

Arrangements For Observance Of Post Office Opening Are Progressing

MANY PROMISE HELP ON PROJECT

Present plans for a cachet for first day covers mailed at the dedication of the new post office and federal building here include a double imprint, it was revealed at the meeting of the local stamp club Monday night. One imprint will be on the back of the envelope and will be centered by a picture of the Shenango tin mill or perhaps the Castleton hotel. This will be surrounded by a map showing that the city is midway between New York and Chicago, on the one hand, and between Erie and Pittsburgh on the other. In the four corners will be boxes revealing facts such as the following: 49 churches, 18 schools, 50,000 population, good roads, enamelware, pottery, limestone, tinplate, bronze, steel. At the bottom will be the statement, "Midway Point and Center of the Steel Industry." This will all be in the nature of the so-called graphic maps.

On the front of the envelope will be the cachet proper. Cachet, by the way is pronounced "kashay." It is not generally known that New Castle is possessed of a seal. Some years ago during the centennial celebration here a contest was held and one of the students in the New Castle schools submitted a winning design. This or something similar will be used. Above it will be U. S. Postoffice, First Day, followed by the date, and at the bottom the simple words, "Chamber of Commerce" and "New Castle Stamp Club." It is possible that as is often the case with first day covers, two colors of ink will be used.

Ralph Davis reported for the Cachet committee at the meeting of the club. A large number of stamp collectors from all over Lawrence county were present. Alfred Chilton, secretary of the New Castle Chamber of Commerce, has given

permission to use his office and force to handle money, letters and storage. Since Ellwood City handled 3780 cachets it is estimated that five thousand at least will be handled here, so Mr. Chilton's offer is of great help.

Senator David A. Reed and Acting Postmaster Richard A. Steen have promised their fullest co-operation.

The New Castle post office and federal building will probably be dedicated on or about September 1, 1934, Mr. Davis stated.

A vote was taken on the advisability of admitting women and junior members to the club and it was decided to admit both, a number of each having applied. A meeting will be held soon for the benefit of junior members, especially those engaged in Boy Scout stamp projects. A committee consisting of William J. Stephenson, Jr., Johnrae Earl and Charles Jessop was appointed to further this project.

William Tetlow was received as a new member of the club. The next meeting of the Stamp club will occur Monday, May 14, at the Y. M. C. A.

Forces Are Ready For Forest Fires

Trained "Minute Men" In Ninety Camps Located Throughout The State

(International News Service)

HARRISBURG, April 24.—Thousands of trained "minute men" are on guard in Pennsylvania's vast woodlands today ready on a moment's notice to wage war on the forest fires that come with spring.

Fire troops of the Civilian Conservation Corps in 90 odd camps, located in all part of the commonwealth, are augmenting the "regulars" of the department of forests and waters.

Inspectors and wardens employed by the department are drilling squads of the young "minute men" in the art of fighting the flames that each year levy a heavy toll on the forest resources and wild life of Pennsylvania. Each crew consists of from 15 to 20 men and is equipped with special fire fighting tools supplied by the department.

Experienced woodsmen proclaim that the new fire forces will get many hours of experience before spring turns into summer. All signs, they say, indicate a dry spring with a consequent epidemic of forest fires. Since February the CCC boys already have extinguished many fires, especially in the wide stretches of forest in the northern counties.

The forestry corps was called upon for this duty only a few times last fall for 1933, one of the wettest years in a long time, setting a new record for forest fires in Pennsylvania.

Speedy trucks are constantly available to rush the young forest guards over woodland roads, many of them built by the corps expressly for this purpose, to the scene of the fire when the alarm sounds.

NAMELESS BRIDGE AT THE McMILLIN HOME

On Monday evening, April 23rd, Miss Katherine McMillin entertained, in a delightful manner, the Nameless Bridge club, in her home on Summer avenue. Finesse tallies, carrying scampers and animal designs, were used, and three tables of contract were in play.

Special guests were Miss Eleanor Colgan, Miss Dorothy Colgan, Mrs. Joseph R. McFate, and Mrs. Fred H. Lee.

The beautiful high score award was won by Mrs. McFate. Miss Dorothy Colgan, a June bride-elect, was presented with a lovely gift, to use in her new home.

At a late hour the hostess, assisted by Miss Eloise Cole and Mrs. Lee, served a delicious lunch. The small tables were attractively arranged, and a color scheme of pink and white prevailed.

The club will meet on May 7th, at the home of Mrs. Russell Hannon of Mills Way.

Modernistic Club

Two tables of bridge were in play Monday evening when Miss Betty Conover, Pine street, entertained the members of the Modernistic club at her home.

Lovely awards for their prowess at the game were made to Laura Lash, Jessie May Wheeler and Lillian Richards. Gertrude Herbert was a special guest.

The dining room table was laid for eight and centered with a bowl of daffodils, flanked by tall white candles, when a menu of dainty refreshments was set before the girls. Dorothy Usselson, Walnut street, will be hostess May 7.

Dinner Party

The home of Mrs. H. S. Kelly of 108 Richelle avenue was the scene of a pretty appointed dinner in honor of Mrs. Harry Kelly's birthday.

Table decorations were carried out in spring flowers with a birthday cake in pink and white in the center. Covers were placed for 14 guests and the aids were Miss Wilda Reher and Miss Edith Kelly.

Hours were spent socially and Mrs. Kelly was showered with lovely presents.

Soviets Secretly Build Air Bases

Series Of Bases Being Installed On Kamchatka Peninsula As War Precaution

Would Give United States Permission To Operate From Bases In Event Of War

By LINDESEY PARROTT
International News Service Staff Correspondent
(Copyright, 1934, By International News Service)
MOSCOW, April 24.—The Soviet government is secretly building a series of air bases in Kamchatka Peninsula, Eastern Siberia, against the possibility of war with Japan, International News Service learned on good authority today.
These bases, it is understood here, would be made available to the United States should America be drawn into a Far Eastern conflict. But so secretly are they being constructed that not even the United

States aviation authorities have been informed of the Soviet program.
The information first came to light when two Soviet aviators landed in Manchuria and were arrested by the Manchukuoan military. They revealed that the G. P. U. Soviet political police, had established new concentration camps in Kamchatka.

Prisoners Working.
It is prisoners in these camps, International News Service was informed, who are working on the construction of the new air bases.

Cape Lopatka, southernmost point of Kamchatka Peninsula, is about 1,430 miles northeast of Tokyo, but less than 500 miles from the nearest Japanese islands, an easy flight for bombing planes.
It is also only 500 miles from the Russian Maritime Provinces which the Soviet officials feel they would be compelled to defend against the Japanese in case of war.

Furthermore Kamchatka is less than a thousand miles from Alaska and is connected with Alaska by the long chain of the Aleutian Islands so that a flight from Alaska to Kamchatka would be feasible even by land planes.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver and bowel poisons before breakfast

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach. Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish tang which is not unpleasant. Drink phosphate hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast act on the stomach, liver, kidneys and bowels.

On Court House Hill

Thirty-three instruments of all kinds were recorded at the office of Register and Recorder, William R. Hanna, during the past week as against forty-six during the previous week. There were ten deeds, compared with twenty-five the previous week. Eleven mortgages, compared with seven. The Home Owners corporation made a record by recording eight mortgages, totaling \$23,808.28, compared with two totaling \$7,240.99 the previous week. There was one mortgage to a building and loan of \$1,650; one to an individual for \$2400, one to a bank for \$9000, and four chattel mortgages. The latter were obtained by farmers for crops seed.

In an opinion handed down by the supreme court yesterday, Judge James A. Chambers was affirmed in the case of the Monongahela Bank of Morgantown, W. Va., against the estate of the late Percy M. Craig of this city. This was a case in which the late Percy M. Craig owned \$2,892.50 worth of stock in the Monongahela bank. The bank failed and the Craig estate was assessed an amount equal to the stock held. Earl M. Craig, executor of the estate of Percy M. Craig maintained that there was no evidence offered in the common pleas court of Lawrence county as to the extent of the defunct bank's assets. It was contended by the executor's attorney that the West Virginia statutes provide that levies upon capital stock share holders in case of bank failure are to be based on the institution's assets and liabilities. Judgment was awarded by Judge Chambers, and this decision has been sustained. The estate will have to pay the claim.

Judge James A. Chambers was sustained by the supreme court today in his decision that children of the second wife of John W. McLaughlin are not entitled to the estate of their half-brother Edward R. McLaughlin who was killed in France, and the controversy was over \$4,344 war risk insurance; placed in the hands of Shuby E. Triplett, as administrator. Triplett's stewardship was revoked in April, 1933, on the petition of Edna Golden, Ethel Mills, and Helen, Viola William McLaughlin, the children of John W. McLaughlin's second wife, Alice Stillings McLaughlin. Swift voiding of the revocation followed when Harold L.

McLaughlin of Struthers, O., a full brother of deceased, won his appeal before the Lawrence county court, the court holding that neither Edna Golden, nor her sisters or brother had any inheritable blood from Edward R. McLaughlin. McLaughlin, the father, and Cordelia, his first wife, separated in 1908. Subsequently on January 15, 1900, McLaughlin married Alice Stillings at Youngstown, O. It was from this union that the appellants were born. McLaughlin's first wife, mother of the deceased soldier, died here in 1915. There was no evidence that a divorce from McLaughlin had ever been secured. It was upon this question of birthright that Judge Chambers held the half-brother had no inheritable blood from the first marriage. Appellants argued that the law provides that the question of legality of birthright shall not be raised after the death of the first and lawful wife.

Judge R. L. Hildebrand was affirmed by the supreme court today in his decision in the case of Dr.

Meyer M. Frank against Julius Marley. This case grew out of an automobile accident in which Frank was injured while riding with Marley. The main point at issue was whether a sleeping passenger in an automobile is guilty, with the driver, of contributory negligence in an accident. Frank was injured while coming from Youngstown with Marley on June 28, 1930. Frank sued for \$31,321 damages. Judgment was returned in favor of Marley on the grounds that Frank contributed to the negligence by falling asleep while a guest in the car. It also being claimed that Marley who was driving, had dozed off. Motion for a new trial and for judgment notwithstanding the verdict, was made and refused by Judge Hildebrand. Frank then appealed to the supreme court.

Will Give High School Entrance Exams On Saturday

Eighth Grade Pupils In County Will Take Tests At Various Schools

High school entrance examinations for the pupils residing in the school districts in Lawrence county which do not have accredited high schools will be given Saturday, County Superintendent of Schools John C. Syling stated today.

The examinations will start at 9 o'clock in the various school districts, and will be in charge of a high school teacher or principal from another district.

Only those pupils where there is no high school in the district are required to take the examination, but one school district, Slippery Rock township will have its pupils take the examination in the Princeton high school.

On account of the Wurtemburg school burning down in January, the pupils of Perry township will take the examination in the Ellport building.

The examination is given to determine the fitness of the pupil to enter high school.

AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m., April 23, 11 arrests on charges as follows: drunkenness 6, suspicion 2, violating traffic signal and making left turn, complaint of wife 1 and on warrant 1.

Should the Alexander bill be made a city law it will mean the end of the recreation board which has existed for years. During its reign the recreation board has been composed of two city councilmen, two school directors and one civilian. The city always has appropriated the money for the operation and maintenance of the playgrounds up to last season. The Alexander measure turns the recreation board loose and puts all parks and playgrounds under the control of the Park commission which is composed of Messrs. Wadlinger, Hill, Blake, Cunningham and Chilton.

If there is anything worse than a left turn in front of an oncoming car it is two left turns. However, it is refreshing to know that the police department has taken cognizance of these violations.

There is no sight more heart-trending than to attend a police court wherein the principals is a family divided. For instance yesterday a father was a defendant, mother a witness and interpreter. The mother and father 'chewed the rag' continually during the trial. Finally the mayor asked the lad to step forward, pay no attention to either and tell the truth. He did with candor, though humiliation. His heart was with his mother and yet he didn't apparently want to hurt his father. Finally the story came out. The father had gone to a club, had imbibed some intoxicants, returned home and was annoyed because the radio was being played by one of his sons. He ripped out the wires, hence trouble, police, jail. The mayor told the man that "in our country you shall treat your wife as your equal and not like a horse. You do the working, let your wife run the house." He said that the son, a most likeable chap, showed the effects of good training" which he probably has got from "outside persons, because you two battle every time you meet." The mayor did not fine the man, believing it would prove a hardship on the family.

When the pre-meeting of the Rivers and Harbors congress meets in the national capital within a few days several city officials will be present as the proposed Mahoning-Beaver canal will be one of the principal topics.

City health bureau clerks have compiled a report of March contagion which has been presented to city council, is the board of health although it hasn't met in that capacity for years. Two hundred and fifty cases were reported during March. Here is how the contagion ranked: mumps 170, scarlet fever 43, whooping cough 22, measles 18, chickenpox 6, diphtheria 1. In addition 18 persons were reported to have pneumonia. This resulted in each house being placed in quarantine.

Cascade Park, turned over to the city for \$100, was assessed at \$101,000, it is said. Repairing of one side of the Gardner avenue viaduct is under way, the other side having been repaved in the past. Cascade Park workmen are to be protected by Workmen's Compensation insurance. Concessionaires at the park also must carry public liability insurance. Money loaned from the playground fund to the golf course is to be repaid as soon as the receipts start rolling in.

Cy Landrum had Possum and sweet potatoes last night and if he didn't have 'em last night he may be having 'em today. Here's the story. A young lad captured a possum and he took it to the police station. He turned it loose and in a moment the possum was scurrying for an exit. He lodged in a new compartment being built for the radio transmitter. A possum catcher was sent for and he appeared in the person of Cy Landrum of the First Ward. He caught the animal and toted him to his domicile and city hall reports that he believe that Cy's gonna have a mighty nice dinner if he hasn't already enjoyed it.

EXPECT MORE WITHDRAWALS IN STATE RACE

Governor Race To Narrow Down

Expect More Candidates To Follow Example Of Judge McDevitt

SIX IN RACE ARE CONSIDERED STRONG

(International News Service) HARRISBURG, April 24.—Several more of the 15 remaining aspirants in the Republican gubernatorial race today were expected to follow the example of Judge Harry S. McDevitt, of Philadelphia, and retire from the campaign.

Among those mentioned as most likely to withdraw in order to permit a closer consolidation of sentiment were Judges Robert E. Lamberton and Albert S. C. Miller, of Philadelphia, and possibly Judge George A. Welsh, of the federal bench.

Strong Candidates
Additional retirements would still leave the field with the following half dozen strong candidates: Attorney General William A. Schnader, Lieut. Gov. Edward C. Shannon, Attorney Charles J. Marzetti, Judge Marion D. Patterson, Thomas W. Phillips, Jr., and John A. McSparran.

In announcing his withdrawal from the race, Judge McDevitt was careful to show a preference for none of the remaining candidates but John C. Groome, Jr., manager of the Shannon for governor committee in the eastern section of the state made an immediate bid for the McDevitt support.

Campaign pyrotechnics flared on several fronts today as many of the leading candidates were busy with town-to-town campaigns, most of it in the western confines of the state.

Reporter Nabs New York Thug

Police Reporter Surprises Gang Of Bandits In Act Of Holdup And Captures Two

(International News Service) NEW YORK, April 24.—Sid Livingston, who is a police reporter for the New York Evening Journal, admitted ruefully today that it's sometimes easier to make news than to find it.

Livingston was driving through Brooklyn in quest of a story late last night when, passing a dairy, he heard cries for help and dimly saw the forms of men struggling in the darkness.

Swings Fists.
Refusing to draw a revolver, which he has a permit to carry, the reporter, who weighs about 250, dashed into the store. He found four young men, one with a revolver, raining blows on Joseph Postal, 42, proprietor of the dairy. With one blow, Livingston felled the man with the pistol and his companions fled.

Leaving the bandit whom he had struck, lying prostrate on the floor, the reporter set out in pursuit of the others. After a chase of several blocks he managed to catch one of them.

The two captured bandits gave their names as Francisco Quartieri, 19, and Louis Catrone, 18.

P. S.—The story was exclusively Livingston's.

DISCOVERED HOW EXCELLENT VENDOL IS FOR CONSTIPATION

New Castle Man Kept Full Of Aches And Pains, Stomach Bothered Him, And Was Biliious. Vendol Corrected Constipation And These Troubles Disappeared.

"I suffered attacks of constipation which at times proved serious, and just about laid me out," declared Mr. Clare McGuire, residing on Route 6, New Castle, to the Vendol Man in the New Castle Drug Company.

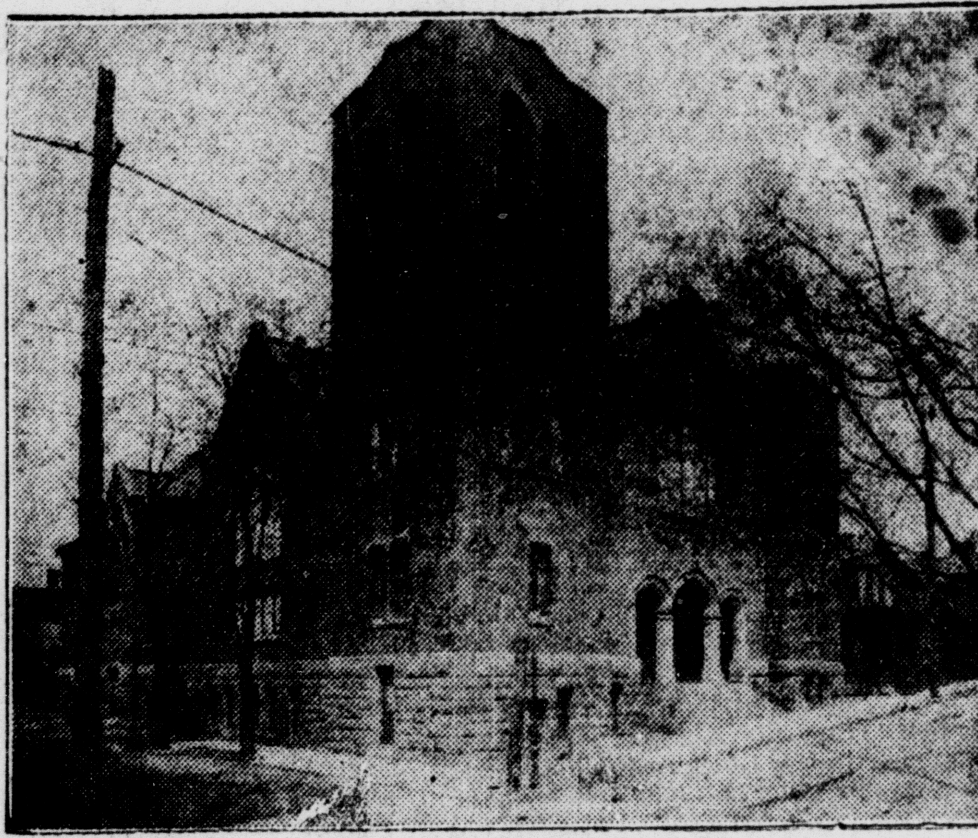

"For the past five years I've been taking treatments for constipation, and Vendol and the little laxative tablets, have given me more relief than any of them.

"When those spells of constipation came on, it threw my whole system out of gear. I'd have pains in my temples, my head felt heavy, and I'd be awake by the hour before I could finally get off to sleep. I'd feel all worn out every morning, just like I hadn't been to sleep at all.

"I'd carry a coating on my tongue and there was a vile taste in my mouth. One of the worst troubles was shortness of breath which came from so much gas in my stomach. I used to take a lot of soda after meals for the gassy condition, but I got too much once which almost laid me out, so I quit taking it.

"So many people here in town were being helped by Vendol that I started taking it three weeks ago, and it has proved excellent for my troubles. It just seemed to act on

Airplane Factory Plans Discarded

Appropriation Of \$10,000,000 Asked By President Roosevelt Eliminated

Fund For Building Of Plane Factory Was Not Challenged By Congress

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, April 24.—An administration plan to place \$10,000,000 in President Roosevelt's hands for an army airplane factory and for other aviation purposes was discarded today as the result of one of the strangest chapters in congressional history.

The appropriation was eliminated from the \$316,000,000 army supply bill in a conference between senate and house. The bill now goes to the White House.

Plans Were Secret

Presumably the president approved abandonment of the factory plan. During the proceedings in congress no official explanation was given, nor was the \$10,000,000 fund challenged in either branch.

Despite the secrecy, it was learned the administration requested the fund to build a factory.

Construction of an army airplane factory would have extended the present set-up. The army now maintains clothing factories and manufactures ordnance. The navy maintains an airplane factory in Philadelphia as well as naval yards there and elsewhere.

The \$10,000,000 fund was requested by President Roosevelt at a time when congress was assailing profits of airplane manufacturers, and it was inserted in the bill by the senate.

Civilian Personnel

The authority for construction of a factory was contained in the permission to purchase or construct buildings and to employ civilian personnel.

As approved by congress the amendment carried only \$5,000,000. Of this \$3,000,000 was earmarked for purchase of new planes, \$1,000,000 for fuel or gasoline and \$1,000,000 for investigation and development of a national aviation program or purchase and development of racing engines.

ONE BLONDE WHO IS PREFERRED

Mary G. Augustine

Gentlemen, apparently, still prefer blondes. At least, so it is with delegates to the state convention of the Ohio Junior Chamber of Commerce at Springfield, who preferred, as the leading lady of their convention, blonde and charming Mary G. May Erect Memorial On City Square

Desirous of leaving some tangible reminder of their work in the CWA and the RWD, a group of the workers have suggested that a permanent monument of the organizations be built in New Castle.

Various suggestions have been advanced but the one that seems to meet with the most favor is that of a public comfort station on the public square. One of the workers in the RWD suggested that each man employed volunteer a day's work on the project and if this were done the station could be erected easily.

With the new post office on the public square the need for a public comfort station becomes more apparent at this point. The stone required for the project could be taken from the Ray street quarry and the masons employed on the RWD could erect a handsome building. The idea is being passed along among the RWD workers and if proper arrangements can be made it will be put through.

Will Not Take Sides On Democratic Factional Fight In Pennsylvania

(International News Service) PHILADELPHIA, April 24.—Postmaster General James A. Farley, chairman of the Democratic national committee, will maintain a "hands-off" policy in the factional fight in the ranks of Pennsylvania Democrats, it was reiterated in responsible political quarters here today.

"It is a local campaign, and I will take no part in it," Farley was quoted as having informed John B. Kelly, chairman of the Independent Democratic City committee, who is backing the nomination of Joseph P. Guflay for United States senator and George H. Egan for governor. Farley and Kelly conferred aboard a train bearing the postmaster general from New York to Washington. The brief conference started when Kelly boarded the train at North Philadelphia and ended a few minutes later when the train reached West Philadelphia station.

Milk Shipments Being Rejected

(International News Service) HARRISBURG, April 24.—Answering reports that some milk dealers are rejecting portions of milk shipped as Class 1 as "surplus," the state milk control board today reiterated it was prepared to enforce its recent price fixing order "to the letter."

Farmer-producers receive the highest prices for Class 1 milk, which is used for human consumption. The milk board's reply was made to Daniel Buckley, secretary-treasurer of the Allied Dairy Farmers Association, who had telegraphed the board that farmers were planning to withhold milk from distributors who refused to pay the Class 1 price.

Shot Us Down Like Dogs Says Bandit Victim

(International News Service) IRONWOOD, Mich., April 24.—"The car looked innocent enough. It belonged to one of my neighbors. But there were gangsters in it. We never had a chance. They shot us down like dogs."

Choking for breath that came in gasps through a bullet-torn body, Carl Christensen, 34, Spider Lake, Wis., constable, today related the story of his encounter Sunday night with members of the Dillinger mob at Spider Lake.

It was an encounter that brought death to one of Christensen's companions, W. Carter Baum, of Chicago, U. S. department of Justice agent, and that may cost Christensen his life. Another federal operative, J. C. Newman, was wounded in the same encounter.

"We ran into the gangsters at Koerner's resort, about three miles from the little Bohemia resort where the gang had been staying since Friday night," said Christensen. "A car without lights was parked in front of the resort."

"We went out to the front and saw right away it was the car of a neighbor, George Laporte. I didn't know it had been stolen."

"Then just as we were stopping, one of the gangsters jumped out of the running board. I couldn't pull my gun. Baum, in the center of the seat holding a machine gun, never had a chance to swing it. The gangster plugged him through the head."

"Newman opened the door of the car. I fell out of the front seat. Then the gangster shot at Newman and me as we lay on the ground. I felt every bullet hit me and I was hit five times."

Christensen is in a critical condition. Newman is only slightly wounded. Baum died instantly.

McNair Skips Single Tax; Jabs At 'These Reporters'

William Nissley McNair, one mayor of a western Pennsylvania city which is Pittsburgh by name, took a verbal sidwinding at "these reporters" in his rambling talk at the Rotary club on Monday. It seems he never leaves the scribes alone.

Ears were cocked and eyes were open for the mayor's introduction of his famed "single tax" theory, but the ears lost their attentiveness and eyes lost their sparkle when His Honor "well, these reporters don't understand this single tax anyway" it. He didn't add that but he skipped it.

Nelson Named As "Trigger-Man" In Dillinger Gang

Sex Education In Schools Is Need Of Hour

Newcastle, Delaware, Is In Throes Of Controversy Between School Board And Parents

(International News Service) NEWCASTLE, Del. April 24.—This historic town, where William Penn first landed to take possession of Delaware and Pennsylvania, today was the arena of a heated controversy over a quite modern subject, sex education for school children.

Pitted against each other on opposite sides of the fence were the board of education which refuses to reinstate Henry E. Snively, superintendent of schools, and a large group of indignant townspeople demanding that the board be ousted in toto.

The civic battle flared to new heights today when the protesting citizens under auspices of the Home and School Association began drawing up petitions to be presented to Governor C. D. Buck, asking the state's chief executive to dismiss every member of the school board.

Relating the history of the controversy, Newlin T. Booth, president of the school board, said that a number of cases of expectant mothers found among the town's student body induced the board to "conclude that social hygiene should be taught in the schools by experts." The experts were hired to institute the course, but Snively insisted that he and members of his staff be allowed to scrutinize the new teaching in order to "neutralize any statements that may be found to be scientifically inaccurate."

Anti-Crime Bills Reported Today By House Committee

(International News Service) WASHINGTON, Apr. 24.—The house judiciary committee today reported favorable two anti-crime bills recommended by the department of justice.

The committee's action was taken while the far-flung search for John Dillinger was being extended through the middle west.

One bill would make it criminal offense to flee across state boundaries to avoid prosecution or to avoid giving testimony in criminal proceedings. The other would apply the penalties of the automobile theft act to other stolen property transported across state borders.

Kentucky Mines May Be Closed

(International News Service) LOUISVILLE, Ky., April 24.—Ten thousand miners in the Western Kentucky coal fields face the prospect of idleness as result of the decision of operators to go into Federal Court for an injunction to prevent enforcement of NRA wage rates.

The suit will be filed here within the next few days, J. Van Norman, attorney for the operators, announced. Operators contended the new wage scale is ruinous to the West Kentucky field.

All mines in the territory will be shut down by Wednesday, except for contract production, the owners predicted.

(International News Service) CHARLOTTE, Pa., April 24.—Washington county's mysterious predatory animal roamed the Charlotte district again today after another successful drive on a chicken coop.

Cratty has established a watch in hopes of catching the animal should it return.

Scientific Data Will Play Part In Murder Trial

White Rats And Rabbits
May Be Used By Defense
In Court At Dedham,
Mass.

YOUNG BANDITS CLAIM INSANITY

By DAVID P. SENTNER
International News Service Staff
Correspondent
(Copyright, 1934, By International News Service)

DEDHAM, Mass., April 24.—Cages of white rabbits and white rats upon which science has conducted relative experiments will be offered in evidence by the defense when it opens its case at the murder trial of Murtin and Irving Millen and Abe Faber, International News Service learned today.

And not only may the courtroom, if the court permits, resemble a clinical research chamber in the Rockefeller institute but the defense of the alleged young machine-gun killers of two policemen during a bank holdup promises to be as unique as the court strategy used in the famous Loeb-Leopold "thrill murder" trial in Chicago.

To Consult Darrow

William R. Scharton, counsel for Faber, made a week-end trip to Washington for the announced purpose of consulting Clarence Darrow, attorney in the Loeb-Leopold case.

"I expect to bring into court live white rabbits and rats on which experiments have been conducted in scientific laboratories to uphold the defense plea of insanity," said Scharton.

There have been few cases in legal history where three defendants on trial for murder have all claimed insanity.

Faber will be pictured as suffering from "social anaemia".

Numerous blood tests and examination of his spinal fluid are being charted. Genealogists, psychoanalysts, medical experts and even his mother and father, Mr. and Mrs. Philip Faber, will be included in the witnesses called.

Novel Defense

An equally novel defense will be included in the evidence offered in defense of the young Millen brothers.

Meanwhile, Norma Brighton Millen, 19-year-old bride of Murtin and daughter of a minister, was served with a subpoena to appear in court next Monday as a witness for the defense. Her counsel, George A. Douglas, is opposed to her testifying in court before her own trial occurs. She is charged with being an accessory after the fact in connection with the bank robbery and murder. As the prosecution prepared to proceed with its case against the Millen brothers and Faber, a writ was on file in federal court in Boston asking for the transfer of the murder trial from Norfolk county where it is being held to a federal court.

As John Dillinger Once Again Escaped Capture

These photos tell the story of John Dillinger's sensational escape from a federal police trap near Spider Lake, Wis., where he and his gang shot their way to freedom after two men were killed and four wounded when the gangsters were surrounded in a resort at Little Bohemia. At right is Max Organist, of Spider Lake, examining the guns and ammunition left behind by Dillinger and his mob; left, above, George Bazou, Emil Winnetka and Frank Traube, captives of Dillinger at Winnetka's lodge who were forced to wait on the gang for three nights at the point of guns; left below, the automobile in which John Hoffman, John Morris, and Eugene Boissoneau were fired upon by federal agents as they left Little Bohemia in the belief they were members of the Dillinger gang. Boissoneau was killed, while Hoffman and Morris were wounded. Morris and Boissoneau were CCC workers.

He was trapped by detectives in an apartment which proved to be a veritable arsenal. Detective David Litvin captured Stickney after firing several bullets, none of which struck the alleged "trigger man". In the apartment officers discovered three revolvers, a sawed-off shotgun, a dismounted machine gun, numerous tear gas guns and a large quantity of ammunition.

Where Dillinger Shot Way From Trap

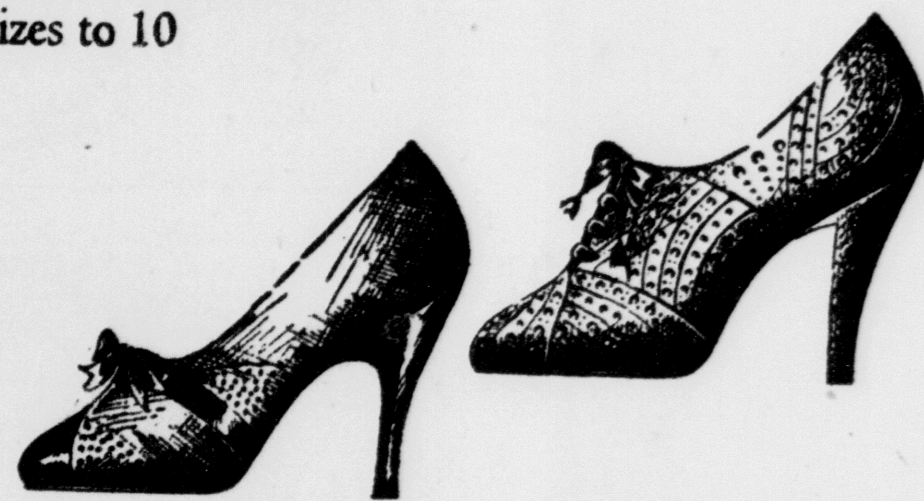

Here are two views of the lodge at Little Bohemia, near Spider Lake, Wis., where federal agents surrounded the Dillinger gang, headed by the desperado himself, only to lose their quarry when the agents fired on a CCC worker by mistake. Two men were killed in the shooting, one a federal agent shot down by one of the fleeing gunmen, the other the CCC worker. Dillinger and his gang later were traced to St. Paul, Minn., when one of the Dillinger cars clashed in a gun battle with a sheriff's car just outside the city. One of the bandits was believed wounded.

Women Blamed For Escapades By Dillinger

Aid Received From Women
Enable Dillinger To Escape
Clutches Of Law

(International News Service)
PHILADELPHIA, Apr. 24.—John Dillinger, the notorious killer, is still at large because of the aid he received from women, in the opinion of Courtney Ryley Cooper, noted author. Speaking before the Republican women of Pennsylvania, Cooper declared:

"Women were responsible for the escape of Dillinger.

"Every arch criminal has with

him an arch-criminal who is much the more dangerous of the two, and that is a woman. Until these women are placed in the same category as men and are punished just as severely for their crimes, there will be as much crime as ever."

Sports' Festival Will Be Colorful Sight On May 4

Many Hundreds Of Senior And Junior High School Pupils Will Stage Drills

Taggart Stadium Will Be Scene Of Greatest Spectacle City Has Ever Known

A large group of groups of young people, fittingly costumed and performing figures and formations to the rhythm of inspiring music has always been a most interesting and spectacular sight.

New Castle with its Taggart Stadium is ideally equipped to provide such a spectacle. It has in its high schools the groups of young people available for such a purpose. In Miss McGoun of Senior High; Mr. Gillespie of Ben Franklin and Mr. Carroll of George Washington; three outstanding instructors in such matters, who have both the knowledge and experience necessary in such a venture.

Mr. Repligle and the best high school band in north western Pennsylvania, possibly in the state (a matter that will be determined next Friday night), together with Mr. Peton who has charge of the junior high bands, in these three bands and their capable leaders, New Castle has over 200 strong band musicians to furnish ample music for even such a setting as Taggart Stadium.

Seats For 10,000

In the concrete stands and bleacher arrangements for 10,000 spectators. In the playing field of Taggart Stadium, 360 feet long by over 160 feet wide, and completely carpeted with spring's greenest grass, New Castle has a perfect setting for exactly this type of entertainment. And finally with the golden glow of 90,000 watts of electric lights, New Castle has the supreme advantage of seeing such a spectacle in the evening when all the work and troubles of workaday world are forgotten. It has the privilege of seeing such an exhibition, not under the glare of electric lights, with the dirt and dust of the afternoon sun, but under the mellow glow and lure of electric lights, with the dirt and dust washed away by the evening dew.

Colorful Sight

With the boys in their white gymnasium suits, the girls in their blue regalia; with the Blue and Gold Ben Franklin; the Gold and Black of George Washington and the Red and Black of Ne-Ca-Hi; with three bands likewise attired in these vivid color combinations and with banners flying and bands blaring, New Castle is indeed well equipped to present such a festival of music and movement and color.

It is the idea of those in charge, to give to the people of New Castle a slight conception of the possibilities of such an exhibition in conjunction with the spring football game with Erie Academy on Friday evening, May 4. The time is limited to get ready for such a venture by May 4th. It is believed, however, that the splendid possibilities can be demonstrated this spring. If the people of New Castle are pleased with this type of entertainment, it is planned to make it an annual affair each spring.

Full and complete details will appear later through the columns of The News.

In case weather conditions are unfavorable, the Festival will be postponed until Saturday night or until a favorable evening can be assured.

President And Cabinet Members Will Watch Washington Senators Open Home Season

(International News Service) WASHINGTON, April 24.—Rained out eight days ago, the president's toss and the colorful ceremonies that inaugurate the opening of the baseball season here will be belatedly carried out this afternoon with just as much enthusiasm among the local fans as if the Senators had not migrated northward on a bad start.

President Roosevelt and a large party of cabinet officers and government heads will fill the presidential boxes while a fair representation of Senators and congressmen will be noted in the stands.

Soon after President Roosevelt's arrival Vice President Garner, accompanied by league officials and the Army Band will march to the center of the field and raise the Senator's League championship pennant. Then Mr. Roosevelt will toss the first ball out on the field and the game will be on.

HERE AND THERE IN SPORTS' LAND

Walker cup team of the United States has been granted permission by the United States Golf association to use the British ball in the trophy matches at St. Andrews which shelled what promised to be a sports controversy. When the team sailed from New York recently it was under instructions to use the American ball which is of the same weight as the British model but appreciably larger. The players did not like the order and writers pointed out the team was being handicapped needlessly as the American ball is rated at least two strokes more difficult per round on a windy day. And it was also pointed out that a player supposedly plays the ball prescribed by the country in which he is competing.

Thomasville, gelding, regarded to date as one of the "dark horses" among the nominees for the Kentucky Derby turned in a splendid workout at Churchill Downs yesterday. He rattled off a mile and a quarter in 2:07 3-5 and H. P. Headley, Lexington, announced he was a sure starter.

The matches, all of which will probably be in May, will be with Slippery Rock, Grove City, Allegheny, and Geneva. Two new courts will be constructed at the college, H. R. Patton, business manager, announces. These courts will be designated as varsity courts, and will be for the sole use of the team.

Livelier Ball To Produce More Home Runs This Season

Big Leagues Find New Ball Will Sail Further; Home Runners Feature Games

Pitchers Get Better Grip On Ball With Raised Seams, Is Reported

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 24.—Both leagues are trying to out-needle the other with the new ball, with the result that the home run orgies of the middle-twenties may be reproduced this year, baseball men seemed pretty well agreed today in a poll conducted by the International News Service following a week of big league play under the revised conditions. National League managers, to whom the "needle ball" is something of a novelty after a year or two of the "fungo," were naturally a little more enlightening in their reactions and views.

Among other things, it seems that the change-of-pace pitchers are liable to be in for a haggard year. The boys can take a half-swing at those soft balls now and pop them in the stands. Previously, they had to go with the Sunday swing and you're lucky to get even a "piece" of a slow ball with one of those.

Managers Worried.
The sacrifice and the stolen base, of course, have become unfashionable and this seems to have distressed George Gibson, manager of the Pirates, who is all for strategy and meditation on the ball field. The point, however, is open to discussion. There are many who feel that thinking is very bad for ball players, but that's going too far. Ball players often think. They have to remember their way to the park every day.

Strangely, while all agree that it's going to be a hitters' holiday, some think it will help the pitching, too. Only a baseball man could figure that one out.

"Our pitchers find they get more speed with the new ball," says Charley Grimm, of the Cubs. "At the same time, the curve ball breaks just as sharply. As for the hitters, you have only to take Chuck Klein's successive home runs for us in two games last week. The ball will make some pitchers hard to hit. But when the hitters hit it—bloody."

Ball Is Livelier.
More to the point, according to baseball men, was Leonard Koenekes, two home runs in one game a few days ago. Ordinarily, it seems he

wouldn't get two in a month. Moreover, there were four hits in a game in the middle west last week and three at the Polo Grounds yesterday, while the eminent Mr. George Ruth claims the American League ball is now yards faster leaving the bat. They haven't been leaving so many of his but the pitchers have been ultra-careful with George so far.

Bill Terry says the ball has made a hitting club out of the Giants but won't help himself or Hughey Critz. Fred Fitzsimmons claims that the raised seams give him a better break with his knuckler and Hubbell adds that he doesn't think the ball makes any difference to him. The Phils and Braves will verify that.

Home Town Is Not Supporting Dillinger

Formal Denial Made That Desperado Is Considered Public Hero

(International News Service) MOORESVILLE, Ind., April 24.—John Dillinger's home town is growing a bit concerned about its native son, particularly his most recent escapade in the north woods of Wisconsin.

A week or two ago he was welcome hereabouts any time he wanted to come back for such a staid thing as a family reunion. But he's growing a little too frolicsome, according to those who a fortnight ago said he would make a good policeman.

So the board of trustees, governing body of this little Hoosier community, became concerned. Its members adopted a resolution addressed to Gov. Paul V. McNutt formally denying that it considered the notorious desperado a public hero. They ask state protection.

Wilson-Ardillo To Fight Tonight

WE see by the papers there is to be a circus in town next month. One time, when Frank (Fleetwing) Dewberry was a kid he led a camel up Moravia street and over Washington in a Wallace Bros. circus parade and when he thinks of it now he certainly envies the kids of today who never get a chance to see a parade. Sharp Rise In Steel Operations For Week Fails To Raise Steel Stock

LABOR SITUATION
HOLDS MARKET BACK

(International News Service)
NEW YORK, April 24.—The stock market continued quiet and irregular today, weakness in silver combining with uncertainty over the labor situation to restrict activities.

Another restraining influence was the U. S. Steel Corp. directors meeting after the close at which the first quarter earnings were to be announced and action taken on the preferred dividend. Wall Street hoped for an increase in the 50-cent payment on the preferred.

What activity developed in the market was in a number of normally dormant issues. Leaders like U. S. Steel, General Motors, Chrysler, DuPont and American Can did little. Auburn was again weak in the motors, falling more than a point to a new low for the year.

Silver futures broke more than a cent an ounce and brought lower prices for the silver shares. Coppers on the other hand were firm with Phelps Dodge active.

Liquor shares recovered from their recent decline. Utilities were quiet and oil shares did little. Rails were firm, awaiting the outcome of the new conference in Washington on the wage situation. Traffic gains last week helped.

The sharp rise in steel operations for the week failed to lift the steel, the steel corporation meeting acting as an offset.

Other than silver, other commodities were quiet and little changed. Bonds were irregular and the dollar firm.

Foremen's Club
Has Successful
Dinner Meeting

Cover 350 Participate In Fine Event At Shelby Club House On Monday Evening

YOUNGSTOWN STEEL
MAN GIVES ADDRESS

ELLWOOD CITY, April 24.—Another event went on the records of success of the Foremen's Club of the local National Tube Company, when it held a dinner meeting in the Shelby Club House with over 350 present.

W. Bruce Hunter presided as toastmaster. The evening was opened with a number of selections by the orchestra after which a period of group singing was enjoyed under the leadership of C. E. Sankey. This was followed with the serving of an extremely appetizing dinner by Rose Babel and her aides.

Business Meeting
A business meeting was then held with President J. E. McDanel presiding. The club passed two amendments to the constitution at this time. One was to have the annual election of officers take place in April and for the officers to assume their posts on May 1. Here-to-for the election took place in May. The other was that the president cannot serve more than two consecutive years.

The secretary's and treasurer's reports showed that the club had enjoyed one of its most successful years, in the matter of meetings, speakers and accomplishments.

John Brunot announced that two plant trips have been arranged for the club. On some Saturday the club will make an inspection of the New Castle News and on May 3 they will visit the New Castle Tin Mill. Al Kirkpatrick announced that there will be an increase in dues for next year. Also at this time a new system of collection was proposed.

J. A. Pearson, who is committee-man of the Club's Boy Scout Troop announced that fine progress has been made by the troop; its membership has been increased and funds have been raised. He invited all present to attend the Boy Scout Court of Honor and annual Spring Round-up to be held in the Shelby Auditorium on Thursday evening.

Reports were given by the entertainment and program committee headed by Dick Downing and Bruce Hunter.

Paul Flautz announced that the last meeting of the year will be held in two weeks. A number of important matters will be taken up at this time. The officers will be installed and delegates to the Regional Conference at Youngstown for May 12, and the National Convention at Wheeling, W. Va., on June 15-16 will be appointed.

The latter will be "We're on Our Way," the title of President Roosevelt's new book.

Youngstown Man Speaks.
The principal speaker of the evening, as introduced by Toastmaster Hunter, was Roy M. Welch, assistant to the president of the Youngstown Sheet and Tube Company. His subject was "The Foreman and His Relation to the Employ Representation Plan."

In defining the foreman Mr. Welch stated that he was a leader, supervisor and overseer who used his knowledge, ability, and experience, for the betterment of his men and plant. A good foreman will consider his plant an investment and work to its best advantage. To do this he must be willing to help and cooperate with all parties of the firm and employees. "No one can move alone and obtain results," he asserted. The foreman has a mutual responsibility to the plant and his men. He urged that there must be no hesitation in adopting new practical methods from the employees.

He stated that there is no going backwards. There has been a change of conditions and a march of progress. He pointed out that the success or failure of an industry is the responsibility of all. He stressed the danger of having men in a plant who want about their work unconcerned.

The speaker asserted that a real foreman spreads good influence everywhere. He must take a fatherly interest not only in his duties, but also in his plant and men. He stressed the importance of complying with directions and holding the interest of the men under him. At all times the foreman could show

concern in the human side and troubles of their men. Thus can all benefit from the representation plan, now being used here.

In closing the speaker left considerable food for thought. He stated that if the employer has been true and faithful to his men, why is it that a more determined stand cannot be taken against propaganda which endangers the company, the community, and its people.

Mr. Welch received a roar of applause and appreciation upon concluding his address.

(Continued From Page One)

accomplishes for the second time in 24 hours eluded the law although police are convinced that one of the "mob" was hit by a 30-30 bullet from the gun of a county deputy.

A lookout warning to all hospitals and doctors for anyone seeking treatment for a gunshot wound has been issued by the authorities and the police are hourly expecting some report from this appeal.

Federal Officers In Charge
While the search for the bandit gang centers here, federal officers have not overlooked the possibility of Dillinger's return to the remote section of Wisconsin from which he escaped Sunday night.

Led by W. A. Rorer, the agent who captured George "Machine Gun" Kelley, the famous Urschel kidnaper, a squad of department of justice men are still near Rhinelander laying plans for an ambush if the gangster or his friends return there.

H. H. Clegg, assistant director of the investigative bureau of the justice department of Washington is here assuming charge of the most intensive manhunt staged by the department.

"I have nothing to say," said Clegg. "There is nothing to give out except that we are hard at work looking for Dillinger. The attorney general said all that was to be said yesterday."

Meanwhile St. Paul is in the throes of a municipal election, upon the outcome of which the future administration of the police department may depend.

"The election will not interfere with the hunt for Dillinger," said the chief of police Thomas Dahill. Renewed efforts on the part of the police to guard the banks of the twin cities from Dillinger depredations were continued today with heavy guards in each institution.

Hunt Shifts.
Milwaukee, Wis., April 24.—Search for John Dillinger and three members of his gang suddenly shifted to Milwaukee and Waukesha counties today when police received a report that four men, all heavily armed, sped westward through Milwaukee in a large touring car.

Shortly after 8 a. m., police were notified by Richard Beckwith and John Miller, electric company motormen, that the "mystery" automobile containing the four men, dashed westward in front of their street car as they turned into the car barn.

Carry Machine Gun.
Beside the driver, alone in the front seat, was a sawed-off shotgun or a machine gun, Beckwith told police. Three men in the rear seat. On the lap of the man in the center was a machine gun or shotgun. Each of the other two men held a pistol, Beckwith said.

The car, he said, was going about 60 miles an hour.

Chicago Report.
Chicago, April 24.—Gunmen speeding in an automobile resembling the one in which John Dillinger is believed to have escaped, early today shot down Motorcycle Policeman William Hoth when he tried to stop the men near suburban Bartlett.

Taken to a nearby hospital with a bullet wound in the shoulder, Hoth expressed belief that the fugitives were Dillinger gangsters.

Follow Cold Trail.
Park Falls, Wis., April 24.—Authorities were following a cold trail here today in an effort to locate five armed men, Dillinger gang suspects, who stopped here shortly after midnight for gasoline and sought information concerning paved roads.

The men appeared first at the Orchid Tavern and ordered beer from Robert Sarnint, the bartender. One of the quintet attempted to catch the news dispatches on the radio. All appeared nervous, Sarnint said.

They drove to a nearby garage and ordered gasoline and oil from Elmer Hoffler, the attendant.

Democrats See Victory

Candidates Speak At Meeting Here On Monday Afternoon

REPUBLICANS ARE PLAYED

Playing the Mellons, the Grundys and the Vares, Democratic candidates for state office spoke at a luncheon in the Castleton Hotel Monday afternoon which was attended by about fifty. Every one of the speakers prophesied victory, every one of them based his candidacy upon an adherence to the Roosevelt policies.

Dr. John A. Meehan acted as chairman of the day and asked Don F. McGrew to return thanks for the meal.

At the conclusion of the meal the following were introduced and spoke: Chester H. Rhodes, candidate for Judge of the Superior Court, Thomas H. Logue, candidate for Secretary of Internal Affairs; George H. Earle, candidate for Governor; Joseph F. Guffey, candidate for United States Senator and S. D. Pearson, candidate for Congress. Guffey was introduced by Wilbur J. Baer.

"Pennsylvania's vote in the convention were the bulwark that held the Roosevelt strength from slipping at a time when other states were wavering," said Mr. Logue. "Col. Joseph Guffey was the man that kept the Roosevelt candidacy in front and he has been the president's confident and advisor ever since. As a token of appreciation Pennsylvania owes him an election. Unless Pennsylvania goes Democratic this fall, our constitutional form of government in this country is in danger."

Following the addresses a reception was held and the party left for Sharon.

Trinity Rector Addresses Men Of Ministry Monday

Spirited Discussion Follows The
Rev. Pearson's Talk On
Recovery Program

Rev. P. C. Pearson, rector of Trinity Episcopal church, was the speaker at the Monday morning meeting of the Ministerial association at the First Presbyterian church. His subject was "The Christian Implications of the Rooseveltian Alphabet and the Task Ahead." He maintained that the church should be the conscience of society and that Christianity has to do with the whole of human life. Therefore, whatever is found in our economic system which ends toward righteousness and the welfare of mankind has a Christian implication. He found a great many such implications in the economy of the present administration. "The task ahead is recovery and reform," he said.

A spirited discussion followed Dr. Pearson's speech in which the advantages and the abuses of the "New Deal" were frankly exposed. The association voted to endorse and commend the people of New Castle a seminar on the Christian Sabbath which is to be conducted next week by Dr. R. H. Martin of Pittsburgh. It was also voted to approve and encourage a project of open-air evangelism by a group of young people under the direction of Rev. William Hammond and the advisory counsel of the executive committee of this association.

Canal Corporation Urged By Swick

BEAVER FALLS, Pa., Apr. 24.—Formation of a canal district corporation was urged by Congressman J. H. Swick of Beaver Falls, speaking before city council Monday. Dr. Swick said he had been told by United States engineers that such a board was formed to follow up improvements. This will be a necessary procedure if the canal, by way of the Beaver and Mahoning rivers to Youngstown, O., is to be constructed.

The Legislature of Ohio has appropriated \$2,000,000 and a canal board has been formed.

The duties of the board were not explained but it is understood it would guarantee property damages and funds for raising bridges.

FIFTY PLEAS ENTERED IN VENANGO COURT

FRANKLIN, Pa., Apr. 24.—With 82 cases originally scheduled for trial at this week's session of Venango county quarter sessions court, the list was pared to 16 Monday, as trials started in two court rooms.

Pleas of guilty were made in more than 50 cases, many of these for liquor offenses or driving while intoxicated.

Golden Wedding To Be Celebrated By Couple On Sunday

Well Known Welsh Residents
Were Married 50 Years
Ago On April 29

By WILLIAM A. JOHNS
Brython

Mr. and Mrs. William M. Davies, of South Jefferson street, will celebrate their golden wedding anniversary next Sunday, April 29, at their home. They were united in marriage in Wales on April 29, 1884 and 40 years ago they left their native home for the United States and came first to Pittsburgh then moved to the city of New Castle over 35 years ago where they have resided and won many friends since. From the union seven children were born, four sons and three daughters. The visiting hours will be from 2 to 5 p. m. and 7 to 9 p. m.

Edwin Eardley, of Bleakley avenue, is still in the New Castle hospital. He met with an accident some time ago when working at North street school.

A letter from David Johns, Morris-ton, South Wales, brother of Brython, states that another brother, Edward, has become strong enough to leave the Swansea hospital for his home.

Griffith Thomas occupied the pulpit of the Emmanuel Baptist church on Sunday and preached a wonderful sermon on the "Fig Tree." All the services at the church will be suspended next Sunday on account of the special service at the First Congregational church.

A very interesting meeting was held last Saturday by the members of the Star of Wales Lodge No. 60, True Iovies of America. The president, Griffith Phillips, was in charge, assisted by Vice-President Thomas Grey. Some time was devoted by members present to the instruction of delegates to the next annual convention. The delegate, Daniel Hughes, was present. Just one member is receiving benefit from the lodge at the present time.
